

**Statement on the application of the corporate governance principles by ACTION S.A.
in the financial year 2021,
constituting an annex to the report of the Management Board of ACTION S.A. on operations in the
year 2021**

Based on § 70(6)(5) of the Ordinance of the Minister of Finance of 29/03/2018 (Journal of Laws 2018.757) on current and interim information to be submitted by issuers of securities, and on conditions for considering as equivalent information required under the law of a non-member state, the Management Board of ACTION S.A. makes the following statement:

a) Identification of corporate governance principles:

From 1 January 2016 to 30 June 2021, ACTION S.A. was subject to corporate governance principles included in the "Code of Best Practice for WSE Listed Companies 2016" adopted by way of Resolution no. 26/1413/2015 of the Supervisory Board of Warsaw Stock Exchange of 13 October 2015.

Since 1 July 2021, ACTION S.A. has been subject to corporate governance principles included in the "Code of Best Practice for WSE Listed Companies 2021" adopted by way of Resolution no. 13/1834/2021 of the Supervisory Board of Warsaw Stock Exchange of 29 March 2021.

The corporate governance principles are available at the GPW website (www.corp-gov.gpw.pl) and on the Company's website (www.action.pl).

The application of the discussed rules is voluntary.

b) Application of corporate governance principles:

With the exception of the circumstances and explications indicated below, ACTION S.A. applies the Code of Best Practice for WSE Listed Companies 2016. At the same time, ACTION S.A. explains that with respect to the "Code of Best Practice for WSE Listed Companies 2016", ACTION S.A. made a statement according to which the Company applies the above rules, except for recommendations VI.R.1. and VI.R.2 and detailed rules I.Z.1.16., I.Z.1.20., II.Z.8, IV.Z.2., VI.Z.4. With respect to the rules that are not applied by ACTION S.A., the Company explains as follows:

- with reference to rule No I.Z.1.16., No I.Z.1.20 and No IV.Z.2. of the Code of Best Practice 2016, ACTION S.A. states that the resolutions and the course of General Meetings itself are obligatorily recorded in minutes by the notary. These resolutions are published as current reports within the required deadlines and, in addition, published on the Company's website. According to the Company, this form of reporting on the course of the General Meeting is sufficient to ensure full transparency of the discussions and secure the Shareholders' rights in this regard. When using electronic communication to broadcast General Meetings and real-time bilateral communication, currently the Company does not apply this rule. The course of the meetings is recorded in the form of the minutes taken by a civil law notary, and later published on the Company's website (including at least the text of resolutions adopted and the voting results). In addition, the Company allows the media to attend the General Meeting. It must also be pointed out that, in addition to the above-mentioned absence of statutory requirements relating to the contents of the Statute (Article 406 (5) of the

Commercial Companies Code), the Company recognises the legal and technical risks resulting from applying said rule. In particular, attendance at the General Meeting resulting from this rule does not allow Shareholders to exercise their main right, i.e. to exercise the right to vote. In such a case it may result in misunderstanding between the scope of the expression "attendance at the General Meeting" resulting from said regulation and expected by Shareholders, as well as further legal measures relating to the impossibility of exercising the right to vote by persons attending the General Meeting using electronic communication. On the other hand, technical conditions may materially violate the requirement of "real-time" broadcast of discussions and bilateral communication, which may also affect the correct flow of information and, as a result, exercise of the Shareholders' rights taking into account the Company's interests. The Company allows for the exercise of a voting right at the General Meeting in person or through a proxy.

- with reference to rule No II.Z.8. of the Code of Best Practice 2016, ACTION S.A. states that in connection with the entry into force of the Act of 11 May 2017 on Statutory Auditors, Audit Firms and Public Supervision, as of 4 July 2017, the Company has both a supervisory board and an audit committee (prior to this date, the functions of the Audit Committee were fulfilled by the Supervisory Board). The chairperson and members of the Audit Committee meet the independence criteria described in Article 129(3) of the Act on Statutory Auditors, Audit Firms and Public Supervision, and other requirements as per Article 128(1), Article 129(1), (3) and (5), and (6) of the above-mentioned Act. Therefore, the rule in question has been applied since 4 July 2017.

Taking into account recommendation no. I.R.2. of the Code of Best Practice 2016, ACTION S.A. announces that in 2021 it carried out sponsorship and charity activities. The policy of ACTION S.A. in this area is based on the assumption that the Company needs to help those who are in a difficult position for reasons beyond their control and to support initiatives connected with the development of sport and physical activity.

With regard to sponsorship activities, ACTION S.A. supports the development of physical activity.

Sponsoring and supporting local communities

ACTION and own brands

With regard to sponsoring activities, the ACTINA brand belonging to ACTION S.A. has repeatedly demonstrated that helping is a part of its DNA and that it engages in charity initiatives for those in need. In January 2021, wanting to provide a better, new place for the pupils of the Mother and Child Home in Jasieniec Iłżecki Dolny, together with Good Game League, the Company made every effort to raise funds for renovation. In 2021, the ACTINA brand organised two sets of educational campaigns addressed to parents: "Gaming is not bad" and "Computer that grows with your child". The objective of the first one was to break the stereotype of gaming as unhealthy and antisocial entertainment by showing a number of specific, positive aspects related to playing games and the gaming environment. In the second campaign entitled "Computer that grows with your child", representatives of the ACTINA brand and experts advised parents how to reasonably choose a computer and what way it may go through together with the development of children's needs. This campaign showed the savings that can be made when purchasing a computer.

In 2021, the ACTINA brand also supported actions addressed to children and young people, which made it possible to develop their physical condition as well as e-sport competencies. During the Pasha Gaming Camp,

over 200 participants took part in walks, bicycle trips and good aim workshops on virtual CS maps. Legia e-Sport Schools is a professional e-sport training for children aged 6 to 16, during which an innovative program combining virtual sports with traditional sports is implemented. At the turn of August and September 2021, ACTINA accompanied during sports camps organised by the MG13 Foundation all over Poland.

From the technological point of view, the ACTINA brand brings e-sport teams to a higher level, which enables players to achieve the greatest successes: Wisła All In Games! was awarded the title of the Polish ESL Master, and HONORIS was awarded the title of the Polish ESL Vice-Champion. ACTINA, becoming the titular sponsor of the Pasha Gaming Camp team, provided young players with further opportunities to develop and participate, among others, in the Professional Division in the Polish E-Sports League. In 2021, Pompa Team and K1CK, the leading European team League of Keys, were also supported.

In the scope of sponsoring activities, in 2021, the Activejet brand belonging to ACTION S.A. continued to support the local sports club - Association of Football Fans, FC Lesznowola. Moreover, in 2021 it sponsored a series of events, which included the "Nowy Targ Road Challenge" on 16-18 July 2021, "Tatra Road Race" on 11 September 2021 and "Europa Starachowice Race" on 25 September 2021.

The Activejet brand was also a sponsor of a series of events in 2021, which included the following ones:

- "Ślężański Mnich" in Sobótka (2 May)
- "Szosowy Klasyk" in Złotoryja (16 May), Szklarska Poręba (4 July 2021), Obiszów (31 July) and Miękinia (29 August)
- "Grand Prix Doliny Baryczy" in Żmigród-Prusice (13 June),
- "Dog's Head Predator Race" in Gromadka (27 June)
- "Grand Prix Kargula i Pawłaka" in Lubomierz (8 August)
- "Grand Prix Sport Center Factory" in Świdnica (12 September)
- "Runda Spadających Liści: season finale" in Sobótka (10 September).

The brand was also the sponsor of a series of ŻTC BIKE RACE events, i.e. Żyrardowskie Towarzystwo Cyklistów, which organises cyclical, road, amateur cycling races and street runs.

With regard to direct support of the local community during the Christmas period, in 2021 ACTION S.A. provided cleaning products as a donation to the Single Mother Home in Chyliczki next to Warsaw and the Children's Family Home in Puszcza Mariańska (city in the Masovian Voivodeship, located less than 70 km from Warsaw). In addition, as part of the employees' initiative, a collection of toys and stationery products for children from this Children's Home was organised. Representatives of ACTION S.A. received warm and official thanks from both institutions for their donations.

With the exception of the circumstances and explications indicated below, ACTION S.A. also applies the Code of Best Practice for WSE Listed Companies. At the same time, ACTION S.A. explains that with respect to the "**Code of Best Practice for WSE Listed Companies 2021**", ACTION S.A. made a statement according to which the Company applies the above rules, except for the rules: 1.5., 2.1., 2.2., 2.7., 2.11.5., 2.11.6., 3.3., 3.4., 3.10., 4.1., 4.3., 4.8., which are not used or are used with modifications. With regard to these rules, the Company submits the following explanations:

- with reference to rule no. 1.5. of the Code of Best Practice 2021, ACTION S.A. informs that it does not disclose expenses incurred by it and its group to support culture, sport, charitable institutions, media, social

organisations, trade unions, etc., as the scale of the above-mentioned expenses is not significant from the point of view of the Company's financial situation and in relation to other costs incurred by the Company. On the other hand, the Company actively carries out activities in the areas described above.

- with reference to rule no. 2.1. of the Code of Best Practice 2021, ACTION S.A. informs that this rule is not applied in the scope of introducing a diversity policy towards the Management Board and the Supervisory Board, adopted by the Supervisory Board or the General Meeting respectively. However, the Company adopted a Diversity Policy by the Management Board concerning the entire organisation of the Company, but it does not provide for a minority share in a given body at a level not lower than 30%. The diversity management policy of ACTION S.A. is based on overcoming barriers such as age, gender and health condition. We believe that an employee's competencies are key for their professional potential. It is also important to promote employment among people with disabilities. Therefore, the employees of ACTION include people with varying degrees of disability, working in different positions. The Management Board and Supervisory Board of ACTION comprise members with education in economics, finance and accounting, management and various professional experience. The Management Board is composed of 2 men, and the Supervisory Board is composed of 1 woman and 4 men. Due to the number of people in the Company's bodies (Management Board of 2 persons; Supervisory Board of 5 persons), achieving the above threshold (30%) is difficult. In the Company's opinion, while observing the principles of proportionality and adequacy in relation to individual needs, measured primarily by the size of the enterprise and type and scale of the Company's activity, this principle will be a way to achieve the required level of diversity.

- with reference to rule no. 2.2. of the Code of Best Practice 2021, ACTION S.A. informs that the rule is not applied in the scope of acting on the basis of the diversity policy referred to in rule 2.1 and ensuring gender versatility – in view of failure to implement such a policy. According to explanations to rule no. 2.1. the Company did not implement the diversity policy indicated in this rule. Persons deciding on the appointment of members of the Management Board and the Supervisory Board are not limited in terms of submitting applications and making choices.

- with reference to rule no. 2.7. of the Code of Best Practice 2021, ACTION S.A. informs that this rule is not applied to non-competitive entities. According to the Articles of Association of the Company, the powers of the Supervisory Board include, among many, granting permission to a Management Board member to run a business competing with the Company or to work for competitive companies as registered partners or members of their executive bodies. No resolution on granting such permission may be passed if an Independent Member of the Supervisory Board submits a substantiated objection in writing, unless the other Independent Member grants permission to grant such permission. At the same time, the Company emphasises that the members of the Management Board of the Company do not engage in any professional activity other than due to their function in the Management Board of the Company or its affiliates, and these relations have been permanent for years and actually ensure the implementation of the above rule.

- with reference to rule no. 2.11.5. of the Code of Best Practice 2021, ACTION S.A. informs that this rule is not applied in connection with the Management Board's statement on non-application of rule 1.5 to which this rule applies.

- with reference to rule no. 2.11.6. of the Code of Best Practice 2021, ACTION S.A. informs that this rule will be applied starting from the statement for 2021. The Supervisory Board has so far prepared the Report of the Supervisory Board of ACTION S.A. on the results of the assessment of the Management Report, the

consolidated financial statements, the Management Board's motion and information regarding the distribution of profit and the assessment of the standing of the ACTION Capital Group, pursuant to Article 382(3) of the Commercial Companies Code and the requirements of the Code of Best Practice 2016. In connection with the extension of the scope of the statements specified in this rule, the Supervisory Board will take into account additional information to the extent indicated above in the statement for 2021.

- with reference to rule no. 3.3. of the Code of Best Practice 2021, ACTION S.A. informs that this rule is not applied in the scope of appointing an internal auditor. On the other hand, the Supervisory Board and the Audit Committee assess whether there is a need to appoint an auditor. Internal control, risk management and compliance functions in the Company are performed by and with the involvement of the Controlling and Operational Support departments, process optimisation coordinators, ISO management systems and the Legal Department. In such a system, the Company strives to minimise risks characteristic of the industry/area in which it operates. Once a year, persons responsible for the internal control and risk management system submit to the management board and the supervisory board a report on the annual assessment of the functioning of the internal control and risk management system in the company. In the Company's opinion, this system complies with the principles of proportionality and adequacy in relation to individual needs, measured primarily by the size of the enterprise and type and scale of the Company's operations

- with reference to rule no. 3.4. of the Code of Best Practice 2021, ACTION S.A. informs that the rule is not applied in the scope of making the remuneration conditional only on the performance of assigned tasks. In connection with the principles of the Company's internal control system, including the lack of an internal auditor, remuneration of persons responsible for risk management and compliance and internal audit are based on fixed and variable components of remuneration.

- with reference to rule no. 3.10. of the Code of Best Practice 2021, ACTION S.A. informs that in connection with the rules of the Company's internal control system, participation of persons holding substantive positions in the Company's structure, the Management Board, the Audit Committee, the Supervisory Board and the audit firm, as well as published reporting in this respect, the Company considers that this system complies with the principles of proportionality and adequacy in relation to individual needs, measured primarily by the size of the Company and the type and scale of its operations.

- with reference to rule no. 4.1. of the Code of Best Practice 2021, ACTION S.A. informs that, with respect to the use of electronic communication to broadcast General Meetings and real-time bilateral communication, currently the Company does not apply this rule. So far, the Company has not received any notifications from shareholders regarding their expectations of holding a general meeting of shareholders using electronic means of communication. The course of the meetings is recorded in the form of the minutes taken by a civil law notary, and later published on the Company's website (including at least the text of resolutions adopted and the voting results). In addition, the Company allows the media to attend the General Meeting. The Company allows for the exercise of a voting right at the General Meeting in person or through a proxy.

- with reference to rule no. 4.3. of the Code of Best Practice 2021, ACTION S.A. informs that the Company does not provide publicly available real-time broadcast of General Meetings. So far, the company has not received any notifications from shareholders as to their expectations of broadcasting the general meeting of shareholders.

- with reference to rule no. 4.8. of the Code of Best Practice 2021, ACTION S.A. informs that the rule is not applied in the scope of the 3-day period. Draft resolutions of the General Meeting on matters included in the

agenda of the General Meeting are published by the Company in the form of a current report supplementing the agenda of the General Meeting and are published on the Company's website. The Company did not introduce a 3-day deadline for submitting draft resolutions by the shareholders, as Article 401 (4) of the Commercial Companies Code does not provide for such a limitation. Pursuant to this provision, draft resolutions should be submitted before the date of the General Meeting.

c) Description of the basic characteristics of internal control and risk management systems applied by the company and the capital group in the process of preparing financial statements and consolidated financial statements.

According to the applicable laws, the financial statements are drawn up by the Issuer's Management Board. This process is subject to audit and evaluation by a statutory auditor (appointed by the Supervisory Board) and the Supervisory Board, which draws up a report on said subject matter and submits it to the General Meeting of the Company. The entity which audits the financial statements participates in the General Meeting during which the financial statements are examined and approved.

In accordance with the regulations in force in the Company, at least 2 members of the Supervisory Board meet the independence criteria. Their participation is also significant during internal control and risk management related to the process of preparing financial statements. In particular, their position is significant when the entity auditing the financial statements is being selected as well as during other important activities concerning members of the Management Board and related parties (see § 15 (2) (6), (11-12), (13-14) of the Statute). The Company also has an Audit Committee performing its activities also in the scope of internal control. Members of the Audit Committee meet the independence requirements specified in the Act of 11 May 2017 on Statutory Auditors, Audit Firms and Public Oversight.

Internal control, risk management and compliance functions in ACTION S.A. are performed by and with the involvement of the Controlling and Operational Support departments, process optimisation coordinators, ISO management systems and the Legal Department. These activities are carried out in accordance with the Description of the Internal Control System of ACTION S.A.

With the involvement of the Legal, Accounting and Controlling departments, ACTION S.A. seeks to minimise the risks typical for its business and the industry.

As part of its activity, ACTION S.A. actively and effectively manages the market and credit risks, liquidity, capital and random events.

The risk management policy is implemented through measures such as verifying contracts in terms of legal and accounting aspects, and in terms of potential long-term financial and legal consequences. Since Action is listed at the Warsaw Stock Exchange, the Company puts great emphasis on transparency and credibility. ACTION S.A. makes every effort to be a reliable partner for its customers. It ensures that all actions taken are compliant with applicable law, which is ensured by the legal department. In addition, before contracts are concluded with new counterparties, ACTION S.A. verifies such contracts for legal, financial and accounting aspects, and performs a general evaluation of the counterparties' financial situation by requiring them to produce suitable documentation in order to prevent the conclusion of contracts with insolvent customers.

The functioning of these systems is verified by the Management Board, the Audit Committee and the Supervisory Board. These activities take place, among others, through the analysis of the Management

Board's reports in this respect, as well as direct discussions with the Company's representatives (not only Members of the Management Board, but also persons holding positions in the departments forming the internal control system) on the effectiveness of the functioning of internal control systems and functions, risk management, compliance and the internal audit function. The results of the analyses are included in the relevant reports of the above-mentioned bodies.

III. Chart of organisation of 3 lines of defence within the organisational structure of ACTION S.A.

The Company's internal control system and the risk management system are organised on three independent levels:

- 1. In its Organisational Structure, the Company distinguishes units responsible for the performance of tasks under the Control Function, in accordance with the concept of three lines of defence.
- 2. The Company's Internal Control System is organised at three independent levels, where:
 - 1) the first line of defence consists of risk management in operating activities;
 - 2) the second line of defence consists of risk management by employees on specially appointed positions or in organisational units, regardless of risk management at the first line of defence, in particular employees of departments indicated in point IV, i.e.:

1. controlling and operational support,
 2. process optimisation coordinators; ISO management systems,
 3. legal department.
- 3) the third line of defence comprises the activities of the Audit Committee in the scope of controlling the effectiveness and adequacy of the internal control system.
3. On all three lines of defence, as part of the Internal Control System, the Company's employees, in connection with the performance of their duties, apply appropriate control mechanisms or independently monitor compliance with control mechanisms.

IV. Location, scope of tasks, independence of departments responsible in the Company's structure for internal control, risk management and compliance

Internal control, risk management and compliance at ACTION S.A. are implemented in cooperation of the following departments:

1. controlling and operational support,
2. process optimisation coordinators; ISO management systems,
3. legal department.

As part of the evaluation of the internal control system and the risk management system, particular attention must be paid to the currency risk management principles applicable by the Company, including in particular:

1. continuous monitoring of currency positions and on-going alignment of hedge levels;
2. division of control and supervisory responsibilities among three independent departments of the Company.

As part of internal control, the Controlling Department monitors specific aspects of the Company's business:

- monitoring of the monthly budget performance by the Company's departments
- management accounting
- sales support – accounting for bonuses due to the Company, supervising conclusion and performance of marketing agreements in a specific form
- monitoring of monthly fixed costs incurred by the Company
- budget planning, including constant monitoring with the Management Board of the 2019-2028 financial forecast, which was published in current report no. 40/2019
- verification of sales targets
- monitoring of fixed costs incurred by the Company, including analysing and reporting on monthly fixed costs, approving and verifying cost invoices for formal aspects.
- supervision, with the participation of the Management Board and the Chief Financial Officer, of the Company's financial situation in the context of the Company's current financial liquidity in relation to the need to repay claims under the concluded composition agreement in connection with the restructuring proceedings which have been finalised.

The Company has also implemented management systems conforming to the international standards ISO 9001, ISO 14001, ISO 27001 and ISO 28000.

Our information security system conforming to ISO 27001 has special significance. It functions properly and without any disruptions. ACTION S.A. has maintained the implemented information security policy, and the

IT Department constantly monitors the system's performance. As part of the implemented standard ISO 27001, the following areas function without any disruptions: asset management, HR security, physical and environment security, system and network management, access control, business continuity management, acquisition, development and maintenance of IT systems, and information security incident management. The implemented standard ISO 9001 ensures monitoring of documents and records, management commitment to building a quality management system, resource management organisation, definition of product realisation processes and regular measurements (of customer satisfaction, products and processes). All of these measures are meticulously implemented by Action S.A. The Company's focus is on the customer (the organisation's market position depends on its customers), leadership (the organisation's management sets its development directions), commitment by our people (people are our most valuable asset), process-oriented approach (the organisation's efficiency and effectiveness depend mainly on the quality of its processes), systemic approach to management (quality management is regarded as management of interrelated processes), continual improvement (the organisation's standing goal is to constantly improve its process), subject-matter oriented approach to decision making (decisions are made based on a logical or intuitive analysis of all available data and information), mutual benefits in relations with suppliers (establishing mutually beneficial relations with suppliers of goods and materials ensures high quality for the organisation). Action S.A. makes sure that its business does not adversely affect the natural environment, and has therefore implemented ISO 14001.

Given that the business of ACTION S.A. is largely based on the distribution of goods, the Company has implemented ISO 28000, which is an international standard for supply chain security management systems. The ISO 28000 certificate is a valuable framework for organisations whose business involves or is based on the logistics industry, helping them minimise the risk of incidents in the security system and ensure problem-free and punctual delivery. The system implemented in the Company functions without any disruptions. This has been confirmed by a positive outcome of a number of audits performed by external auditors. The systems and regulations presented above determine the course of operations. They enable correct information flow and financial reporting.

Management personnel – Members of the Management Board are appointed and dismissed by the Supervisory Board. A member of the Management Board can also be dismissed by the General Meeting of the Company.

The Statute does not authorise the Management Board Members to increase the share capital or the number of shares. Such actions require a resolution of the GSM.

The Members of the Management Board were authorised to make decisions on the redemption of the Company's equity shares based on Resolution no. 14 of the Ordinary General Meeting of ACTION Spółka Akcyjna of 23/06/2016 on authorising the Company's Management Board to acquire the Company's equity shares and on amending Resolution no. 3 of the Extraordinary General Meeting of ACTION S.A. on authorising the Company's Management Board to acquire the Company's equity shares of 30 September 2011. The legal basis of this authorisation was Article 362 § 1 (8) and Article 362 § 2 of the Commercial Companies Code as well as Commission Regulation (EC) No 2273/2003 dated 22 December 2003 implementing Directive 2003/6/EC of the European Parliament and of the Council as regards exemptions for

buyback programmes and stabilisation of financial instruments (Official OJ WE L 336 of 23 December 2003) and the Regulation No 596/2014 of 16 April 2014 of the European Parliament and of the Council (EC) on market abuse (market abuse regulation) and repealing Directive 2003/6/EC of the European Parliament and of the Council and Commission Directives 2003/124/EC, 2003/125/EC and 2004/72/EC (Official OJ EC L 173 of 12 June 2014).

According to the contents of the above Resolution, the Company's Management Board was authorised to acquire up to 3,391,400 equity shares of the Company with a total nominal value of PLN 339,140. The total amount of funds earmarked for the purchase of equity shares, comprising the total purchase price of equity shares increased by the costs of the purchase thereof, was determined at an amount not exceeding PLN 30,000,000. The price at which the Company could purchase equity shares could not be lower than the nominal price of the shares and could not exceed: the price of the last independent transaction and the highest current independent bid in transactions concluded during sessions at the Warsaw Stock Exchange. The authorisation granted to the Management Board to purchase equity shares remained in force until 30 September 2021, subject to the provision that not longer than until the funds earmarked for implementation of the Programme have been used.

The Company's Management Board did not use the above authorisation.

The operation of the Management Board of ACTION S.A. and its fundamental rights are described in statutory regulations and the Company's corporate documents (the Articles of Association, the Management Board Regulations) which comply with statutory regulations. An excerpt from the Statute is included in item k) below.

i) Description of the rules for amending the issuer's statute or articles of association.

The Issuer's Statute can be amended by the General Meeting in the manner set out in the Commercial Companies Code. The Statute does not introduce any rules in this regard that differ from the statutory regulations.

6. During a General Meeting, each Shareholder can submit draft resolutions concerning matters entered on the agenda.

9. A resolution to dissolve the Company in the event referred to in Article 397 of the Commercial Companies Code requires an absolute majority of votes.

10. Voting takes place as open ballot. A secret ballot is required whenever electing, dismissing or suspending members of the Company's bodies or its liquidators, or whenever voting on the liability of specific individuals or their personal affairs. A secret ballot shall also be held if one or more Shareholders with valid voting rights requests it.

Shareholder's rights and the manner of exercising thereof:

Property rights attached to the Company's shares

1) The right to dividend, i.e. to participate in the Company's profit reported in financial statements, audited by a statutory auditor, designated by the General Meeting to be paid to Shareholders (Article 347 of the Commercial Companies Code). The profit is distributed proportionately to the number of shares. The Statute does not provide for any privileges with regard to this right, which means that the dividend amount is the same for each share. Entitled to receive the dividend for a given financial year are Shareholders who were entitled to it on a record date which may be specified by the Ordinary General Meeting to be the day of adopting the resolution on the distribution of profit or within the next three months as of that day (Article 348 of the Commercial Companies Code). When determining the record date, the regulations of KDPW and GPW need to be taken into account.

The Ordinary General Meeting also sets the date of dividend payout (Article 348(3) of the Commercial Companies Code). As a result of adopting the resolution on the distribution of profit, Shareholders acquire the right to a dividend. The right to dividend becomes due on the day specified in the resolution of the General Meeting and is subject to the statute of limitations in line with general principles. The provisions of law do not specify the date on which the right to dividend expires.

2) No other right to participate in the Issuer's profit is attached to the Issuer's shares.

3) Priority right to subscribe for new shares in proportion to the number of shares held (subscription rights), while preserving the requirements referred to in Article 433 of the Commercial Companies Code, a Shareholder may be deprived of such right in whole or in part, should the interest of the Company so require, by resolution of the General Meeting adopted by the majority of at least four fifths of votes; the provision requiring the majority of 4/5 of votes shall not apply where the resolution on increasing the share capital provides for the new shares to be taken up in whole by a financial institution (sub-issuer) subject to the obligation to offer the shares to Shareholders to enable them to exercise the pre-emptive right pursuant to the terms and conditions specified in the resolution, and if the resolution stipulates that new shares are to be taken up by the sub-issuer in the event that Shareholders with the pre-emptive right fail to take up some or all of the shares offered to them; Shareholders may be deprived of the pre-emptive right only if the intention to do so was announced in the agenda of the general meeting.

4) Right to participate in the Company's assets remaining after satisfying or securing creditors in the event of its liquidation; the Company's Statute does not specify any privileges in this respect.

5) The Company can redeem its shares by acquiring them upon the shareholder's consent (voluntary redemption of shares). The terms and conditions as well as the rules of voluntary share redemption are specified in the resolution of the General Meeting, while the Management Board subsequently purchases and redeems the Company's equity shares from the Shareholder, acting strictly within the limits of the authority granted thereto by the resolution, and convenes the General Meeting to adopt a resolution on the redemption

of the shares purchased by the Company for redemption purposes and to adopt the resolution on decreasing the share capital (§6(4) and (5) of the Statute).

6) Right to dispose of the shares held.

7) Right to establish a pledge or usufruct on the shares held. In the period when shares admitted to public trading on which a pledge or usufruct has been established are recorded on securities accounts, the voting right under such shares shall be vested with the shareholder (Article 340(3) of the Commercial Companies Code).

8) The Company's bearer shares are not subject to conversion into registered shares. If registered shares are issued, they may be converted into bearer shares, subject to limitations as stipulated in the Commercial Companies Code relating to shares in return for non-cash contributions, on the Shareholder's motion by way of a resolution of the Management Board which must be adopted within 30 days from the date on which the motion to make such a change was submitted by the shareholder. The costs of such a change shall be covered by the shareholder (§ 6(3) of the Statute).

9) The Issuer's Statute does not include any provisions resulting in the Issuer's obligation concerning a capital call.

10) The Company shall create supplementary capital to cover its balance sheet losses. The supplementary capital shall be accumulated by transferring at least 8% of the annual net profit until the capital reaches at least 1/3 of the value of the share capital; further profit allocation to the supplementary capital may be discontinued. Notwithstanding the supplementary capital, the Company may create other reserve funds (§ 19(4) of the Statute).

Corporate rights attached to the Company's shares

1) The right to participate in the General Meeting (Article 412 of the Commercial Companies Code) and the right to vote during a General Meeting (Article 411(1) of the Commercial Companies Code). Each share entitles the holder to one vote at the General Meeting. Pursuant to Article 411³ of the Commercial Companies Code, a Shareholder can vote differently under each share held.

Pursuant to Articles 412 – Article 412² of the Commercial Companies Code, the shareholder can participate in the General Meeting and exercise the voting right in person or through a proxy. Pursuant to Article 400 of the Commercial Companies Code, a Shareholder or Shareholders representing not less than one twentieth of the share capital can request that the Management Board convene the Extraordinary General Meeting and that specific matters be included in the agenda. In such case, the date of the Extraordinary General Meeting must be announced within two weeks from the date of submitting such a request (in writing or in electronic form). If the Extraordinary General Meeting fails to be convened within such timeframe, the Shareholders who have submitted the request to convene the Extraordinary General Meeting and obtained the authorisation from the registry court have the right to convene the Extraordinary General Meeting.

4) The right to request that specific matters be included in the agenda of the General Meeting.

Pursuant to Article 401 § 1 and 2 of the Commercial Companies Code, a Shareholder or Shareholders representing at least one twentieth of the share capital may request that specific matters be included in the agenda of the next General Meeting. Such a request must be submitted to the Management Board not later than 21 (twenty-one) days prior to the announced date of the General Meeting. The request must include a justification or a draft resolution concerning the proposed item on the agenda. The request can be submitted in an electronic form. If the request meets the requirements provided by law and by this announcement, the Management Board must immediately, but not later than eighteen days prior to the announced date of the General Meeting, announce changes made to the agenda at the request of the Shareholders. The announcement is made in the manner appropriate for convening a general meeting.

5) The right to propose draft resolutions related to matters included or requested to be included in the agenda of the General Meeting prior to the date of the General Meeting. Pursuant to art. 401§4 of the Commercial Companies Code, Shareholder or Shareholders representing no less than one-twentieth of the share capital may, prior to the date of the General Meeting, submit to the Company, in writing or in the electronic version, draft resolutions related to the matters included in the agenda of the General Meeting or matters which are to be added to the agenda.

6) Shareholder's right to submit draft resolutions concerning the items included on the agenda during the General Meeting. 9) The right to select candidates for independent members of the Supervisory Board, which has existed since the Company's shares became listed on Warsaw Stock Exchange, shall be vested in a Shareholder or a group of Shareholders representing no more than 20% of the Company's share capital present at the General Meeting (§ 14 (2) et seq. of the Statute). A candidate for an independent member of the Supervisory Board shall be selected by way of a written application of a candidate by a Shareholder entitled to do so submitted to the Chairperson of the General Meeting; there shall be a written declaration by a candidate absent at the General Meeting attached to such an application stating that the candidate meets the

independence criteria specified in the Statute; a candidate present at the Meeting submits such a declaration in the minutes of the meeting. The General Meeting shall appoint at least one member of the Supervisory Board from among the selected candidates for the Supervisory Board, composed of five people or at least two members if the Supervisory Board is composed of six or seven members. 4) Services other than audit were provided for the Issuer by the audit firm in the period in question. These services included the audit of consolidation packages of the Issuer's subsidiary and the assessment of the Supervisory Board's remuneration report. In relation to these services, the independence of the audit firm was audited by the Audit Committee, which agreed to perform these services.

5 a) The policy and procedure for selecting an audit firm were prepared according to the requirements of the Act of 11 May 2017 on Statutory Auditors, Audit Firms and Public Supervision (Act), Regulation (EU) No. 537/2014 of the European Parliament and of the Council of 16 April 2014 on specific requirements regarding statutory audit of public-interest entities and repealing Commission Decision 2005/909/EC (Regulation), and Best Practice for GPW Listed Companies 2016 (Best Practice 2016). Primary assumptions of the Company's policy in selecting an audit firm are:

1. An audit firm is selected based on an invitation to tender prepared by the Company.
2. The selection of an audit firm may not be restricted to any specific categories or lists of audit firms, subject to the restrictions under the laws.
3. Before an audit firm is selected, consultations take place in the Company concerning the preparation, progress and outcome of the procedure for the selection of an audit firm, and the Company's management report and recommendations of the Audit Committee are analysed.
4. The criteria for the selection of an audit firm are formulated in a transparent and non-discriminatory manner, and the following guidelines are taken into consideration:
 - a) the possibility of providing a full range of statutory audit of the Company's and the Group's financial statements (audit of separate and consolidated financial statements, and periodic reviews), taking into account the accounting and financial reporting principles and standards in force at the Company and the dates set by the Company;
 - b) amount of remuneration proposed by the audit firm;
 - c) experience of the audit firm in auditing the financial statements whose i) business, ii) scale of operations and iii) legal nature are similar to those of the Company and its Capital Group;
 - d) experience, professional qualifications and the number of members of the team delegated to audit the Company's financial statements, and the quality standards of the services provided by the audit firm;
 - e) policies, procedures, mechanisms and organisational solutions applied by the audit firm to ensure: i) independence of the audit firm and statutory auditors, ii) internal quality control, iii) risk assessment, iv) information control and security, v) regular change of the key statutory auditor, vi) gradual change of the senior personnel referred to in Article 17(7) paragraph 3 of the Regulation, vii) a mode for the resolution of disputes between the person verifying the quality of the work performed and the key statutory auditors referred to in Article 8(6) sentence 2 of Regulation No. 537/2014;
 - f) other essential detailed requirements related to the statutory audit (in particular related to changes in the legal status), specified in the tender documentation prepared in connection with the audit company selection procedure.

5 b) The policy for the provision of permitted non-audit services by the audit firm performing the audit, its related parties (including the statutory auditors) and a member of the audit firm's network ("audit firm"), of

ACTION S.A. ("Company") and the ACTION Capital Group, was prepared according to the requirements of the Act of 11 May 2017 on Statutory Auditors, Audit Firms and Public Supervision (Act), Regulation (EU) No. 537/2014 of the European Parliament and of the Council of 16 April 2014 on specific requirements regarding statutory audit of public-interest entities and repealing Commission Decision 2005/909/EC ("Regulation"). The main assumptions of the Company's policy for the provision of permitted non-audit services by an audit firm for ACTION S.A. are as follows:

1. The provision by the audit firm (which performs a statutory audit of the Company, its Capital Group and the Group's members) of non-audit services which are not prohibited services (within the meaning of the Regulation and the Act: 'permitted services') may take place only when such activities do not jeopardise the audit firm's independence.

2. Given the nature of the independence criteria for audit firms (including the structure of remuneration received by audit firms, as specified in Article 4 of the Regulation, and Articles 70 and 137 of the Act), the audit firm may provide permitted services only if it is convinced that the provision of these services does not put independence of the audit firm at a risk which cannot be reduced to an acceptable level through safeguards, and demonstrates to the Audit Committee that this conviction is reasonable.

3. The possibility, scope and terms of providing permitted services result mainly from Article 5(4) of the Regulation, and Article 136(2) and (3) of the Act. In consideration of the prohibition of the provision of prohibited services by audit firms according to the provisions of Article 5(1) of the Regulation, and Article 136(1) of the Act, the evaluation of whether a service is permitted should include not only an analysis of the scope of the proposed services for compliance with the list of permitted services (services which are not prohibited), but also the possibility that this scope might include (albeit partially) the prohibited services.

4. If there is an intention to commission an audit firm with permitted services, the Company's Management requests the Company's Audit Committee to evaluate the threats to and safeguards of independence of the audit firm according to Articles 69-73 of the Act, and to approve the provision of the services.

5. During the procedure, the Audit Committee submits to the Company's Management Board or the audit firm any reservations it might have concerning approval of permitted services, and presents guidelines on how to deal with such reservations. In this case, the Company's Management Board or the audit firm takes a stance on the Audit Committee's position.

6. Having evaluated whether the proposed services are permitted, and having analysed any threats to and safeguards for the independence of the audit firm, the Audit Committee presents the results of the analysis, its opinion on the approval of the provision of permitted services by the audit firm and a substantiation.

6) The recommendation for the selection of an audit firm to perform the audit complied with the applicable requirements and was formulated following the Issuer's selection procedure in line with the applicable criteria.

7) In 2021, four meetings of the Audit Committee were held during which the Committee adopted a number of resolutions as part of its statutory responsibilities. Key issues raised last year:

- preparing issues for discussion with the statutory auditor in connection with the statutory audit for 2020;
- discussion with a statutory auditor of key issues in connection with the annual statutory audit and the half-year review;

m) Diversity policy

The Company operates a Diversity Policy adopted by the Management Board concerning the entire organisation of the Company. ACTION operates in the area of trade, distribution and production of IT, radio, TV and household equipment, GSM equipment, children's products, office equipment and consumables.

The Company's diversity policy manifests itself primarily in following the principles of equal treatment and preventing all forms of discrimination, in belief that it brings tangible benefits and influences growth and innovation within the organization. In its operations, the Company respects diversity, multiculturalism and attaches great importance to the policy of equal treatment of employees regardless of gender, age, disability, health, race, nationality, ethnicity, religion, political conviction, sexual orientation, gender identity, form, scope and basis of employment, and regardless of any other potential grounds of discriminatory behaviour. The organisation is committed to implementing a policy of diversity management and equal treatment, and to promoting this policy among all stakeholders of the organisation.

ACTION believes that its employees, in building a strong team that is satisfied with its work, are the Company's greatest asset, determining its economic success. The recruitment process concentrates primarily on the candidates' professional skills.

The diversity management policy at ACTION is based on breaking down barriers such as age, gender and health. The Company agrees that the professional potential of an employee depends primarily on his/her competencies. It is also important to promote employment among people with disabilities. Therefore, the employees of the Group include people with varying degrees of disability, working in administration, office and warehouse positions. Modern infrastructure of the office and warehouse facility of ACTION S.A. is fully adjusted to the needs of the disabled who are employed at ACTION S.A.

Work-life balance is also promoted. ACTION S.A. supports health and an active lifestyle of its employees, providing them with a wide range of benefits, such as private healthcare and access cards to a number of sports facilities. The office complex includes a music and social club, providing our employees with an opportunity to socialise. In 2021, a pilot program 4/7 was implemented in the Company. The objectives of the program are to reduce working time from 5 to 4 working days a week. The first (pilot) phase of the program consists in the possibility for employees to take every second Friday of the month as a day off. The Program is positively assessed by Employees and the Management Board and will be implemented on a permanent basis from January 2022. Experience from the period of remote work in the pandemic and assessment of the course of the pilot period, in the opinion of the Management Board, gave grounds for introducing such a

solution to the working time system in the Company. The aim of this program is first and foremost to increase the efficiency and productivity of work by reducing the number of hours employees spend in the week behind the desk and thus have the opportunity to reconcile private life with work and regeneration, which will make them more efficient during office hours.

The Company takes every effort to prevent undesired behaviour, such as mobbing and discrimination. Such behaviours are not tolerated in the Company's structure.

The Management Board is committed to making ACTION a workplace where our employees feel respected and are provided with professional growth opportunities.
